return application to:
U-PLAN community planning studio
 712 University Avenue W, Suite 105
 Saint Paul, MN 55104 (651) 641-0293

info@U-PLAN.org
 to process your request online

U-PLAN *community planning studio* facilitates mapping and technical assistance to better engage the community in the planning processes and development activities along University Ave in anticipation of the proposed light rail transit line.

Mapping and technical assistance provide services to generate maps, graphics or research projects. Maps are created by layering existing data to show new relationships. These maps may include information provided by clients or gathered by U-PLAN from the city, county, state, Met Council and/or U.S. Census. U-PLAN also has the capacity to create professional architectural renderings. For a portfolio of past projects, visit our website: www.u-plan.org

Additionally, U-PLAN offers use of the studio space, computer, printer/plotter, trace paper, scales and markers, GIS software and data, and other facilities for clients and organizations to use during their process.

office use only
